

# OC RIMS and the ARM Study Group

The OC RIMS Chapter has partnered with the ARM Study Group to provide the Associate in Risk Management courses for our members. The goal of the ARM Study Group is to promote professional development among risk management and safety professionals and to remove the barriers that prevent people from obtaining their ARM designation. The most significant barriers are usually cost and finding a class that fits with your schedule. **OC RIMS' sponsorship of the courses means course fees are waived for all active, dues paying members.** All courses are offered on-demand, meaning you can access course materials 24/7 via a secure YouTube channel and/or download to your mobile device.

**ERM 57 is now part of course offerings!** For those who already have their ARM, advanced risk management courses are now available. For more information visit [www.armstudygroup.com](http://www.armstudygroup.com).

***This offer is restricted to OC RIMS members actively paying dues to the association. OC RIMS members, please enter "OCRIMS" in the discount code field on the [Registration Fee Waiver](#) page in order to have your registration fees waived.***

ARM 54 Risk Management Principles and Practices	ARM 55 Risk Assessment and Treatment	ARM 56 Risk Financing
